# Slip Ring | 64 circuits | SVTS C 11-S-A-24/40

Slip ring for transmission of electrical power and/or electrical signals with through hole for shaft or rotary union./p>

**SVTS C 11-S-A-24/40** 48 x 5A, 24 x 20A

**Notice :** The provided technical data are the higher limits recommended in static condition. To obtain the correct dimensioning of the product, it is necessary to hold account of all the applicable dynamic forces, including the inertia of the manipulator, the configuration of the tools and the external forces applied.

- Ideal for electrical power and signal transmission
- Through hole 100 mm
- High data rate
- Low friction torque
- High lifetime and reliability
- Compliant to CE and ROHS

- Transmission of electric power/signals and fieldbuses in one unit
- Mountable on the shaft mitigating the need of interface parts
- Combinable with fluidic rotary joints and FORJ
- Cost-effective
